

SERIOUS CRISIS
IS CONFRONTED

Labor Movement Develops Revolution in Spain.

MOB VIOLENCE IN VALENCIA

Premier Canalejas Says Proclamation of Martial Law Is Imperative in Presence of a Movement Unmistakably Revolutionary and Anarchistic in Character, a Movement Directed Against All Social Order.

Madrid, Sept. 20.—Spain is face to face with a crisis equal in gravity to that following the riots in Barcelona in 1909. The agitation and the power of the agitators on the masses has increased in proportion to the rigor of the repressive measures undertaken by the government.

What at its origin was purely a labor movement has now developed into a revolutionary conflict, a commune having actually been proclaimed at two towns near Valencia, where the authorities were driven out.

Concerning the proclamation of martial law the premier issued the following statement:

"The grave measure we have taken is absolutely imperative not only for the defense of public institutions but for society itself. The suspension of the constitutional guarantees has been decided upon by the government in the presence of a movement unmistakably revolutionary and anarchistic in character—a movement, it may be assumed, directed against all social order."

The Spanish government long had been aware that some such movement was contemplated for the end of September, but was unwilling to take radical measures until its true character was apparent. The movement was supported by the Socialists and possibly by the extreme Republican party, and was directed by a committee composed of Spaniards and foreigners, with headquarters at Barcelona.

Fomented a General Strike.

Emissaries were sent throughout the peninsula with instructions to foment general strikes in all the provinces, the object being to paralyze the nation by stopping all public service. The government laid plans accordingly and is resolved on the re-establishment of order at any cost.

Authorities assert that the general union of labor, which proclaimed a general strike of workers. Among the delegates who voted for the strike was the president of the railroad workers, but as this union only recently has been organized it is possible that the movement will fall so far as it concerns the railroads.

Late dispatches from Barcelona and Saragossa say that all is quiet in those cities. Dispatches from Valencia say the agitation in that city has been renewed. A mob threw up a barricade and derailed a tramcar in one part of the city, while another mob tried to storm a convent. In the street fighting one workman was killed and several were injured.

It is reported that the residents of Alcoer, before troops arrived, burned the public buildings, dynamited a bridge and destroyed railroads.

Extraordinary precautions have been taken in Madrid. All the policemen have been armed with carbines.

Premier Canalejas was called to the palace to report the situation to King Alfonso. On leaving the palace he told the newspaper men that the situation generally was better except in the Valencia region.

STRIKE GENERAL IN SEVILLE

Women Parade Streets, Stoning Cars and Tearing Up Tracks.

Cerbere, France, Sept. 20.—The strike at Seville is now general. Groups of women paraded through the city, forcing the manufacturers to close, stoning the cars and tearing up the tracks. Collisions with the police and civil guards are occurring constantly.

One band of rioters attempted to storm the branch office of the Credit Lyonnais, but were repulsed by the police.

MARTIAL LAW IS DECLARED

King Alfonso Signs Decree Suspending Constitutional Guarantees.

Madrid, Sept. 20.—King Alfonso has signed a decree suspending the constitutional guarantees throughout Spain. This is equivalent to declaring the country under martial law.

This act, which had been under consideration for some days, was taken to give the government powers to deal sharply and promptly with the revolutionary agitation now fermenting in many parts of Spain, especially in the cities and industrial districts where republican and revolutionary plans are being furthered under cover of workmen's strikes.

Montana Land Withdrawn.

Washington, Sept. 20.—The secretary of the Interior has withdrawn from entry 26,680 acres of land in the Blackfoot Indian reservation, Northwest Montana. He also has ratified all withdrawals and reservations heretofore made for irrigation purposes in the reservation.

UNCERTAINTY IS
NEARING AN END

Peaceful Conclusion of Moroccan Trouble Looked For.

SOME DISPUTED POINTS YET

Most Serious Controversy France Has Had With Germany Since 1870 and Her Position in Europe Is Greatly Strengthened by the Unity of the People and Firmness of Government Toward a Formidable Neighbor.

Paris, Sept. 20.—The long period of national anxiety attendant upon the Moroccan negotiations is drawing toward a satisfactory conclusion. The French people have been slow in accepting the optimism which has prevailed in Berlin for several days, and it was only after a semi-official communication to the press based on Ambassador Cambon's telegraphic report to the foreign office of his interview with the German foreign minister that sufficient reasons appeared for the conviction that the six months' uncertainty is nearing an end.

A semi-official communication says that, although the question of economic interests of Germany in Morocco appears to be on the eve of settlement, there remain other disputed points still to be settled. Among these are the questions relating to consular courts and a system whereby the legations and consulates take certain natives under their protection. France desires in this regard that Germany shall accept in principle the eventual abrogation of the convention of Madrid concerning the question of jurisdiction in Morocco, and that Germany shall not undertake to increase the number of her proteges while awaiting such abrogation.

The French people, particularly the business world, have become weary of the daily agitations. It is the most serious controversy France has had with Germany since 1870, and the unity of the people, the firmness and tenacity of the government toward a formidable neighbor, with Great Britain always as a friend in the background, is regarded by foreign observers as worth the strain and worry that have been undergone. France's position in Europe, it is generally considered, has been greatly strengthened.

CANNOT ABANDON DEMANDS

So Says Report of Recent Negotiations on Moroccan Question.

Berlin, Sept. 20.—A semi-official news agency, referring to the latest negotiations between the German foreign minister and French ambassador, says that there are German demands of fundamental character which it cannot abandon. Respecting these a formal statement was embodied in a letter which was handed to M. Cambon by Herr von Kiderlen-Waechter, but these officials concluded that it was more practical to discuss orally the existing points of difference and try to prepare an outline which would do justice to the views of both sides. There arose, however, several counter proposals, which the negotiators agreed to submit to their governments.

MANY ARE KILLED AT SUIFU

Rebels Burn the Yamen There and at Other Towns.

Peking, Sept. 20.—The French legation has received a dispatch from Suifu that the prefect's yamen at that place had been attacked and burned by the rebels. Many persons were killed.

The Chinese foreign board has received reports of an attack on the yamen at Kiatingfu, but details are lacking.

The board also has been advised that the yamens have been looted in five towns in the neighborhood of Chengtu.

A message from General Chao Erh Feng, commander of the troops within the besieged capital, says he will send troops to the disturbed districts as soon as it can be arranged. He evidently is awaiting reinforcements.

A Curious Herb.

In New Caledonia there is a herb which has the rare property of revealing one's secrets. It is known as the Datura stramonium and has white flowers and rough berries full of dark grains. They are treated in the "Annals of Hygiene and Colonial Medicine." A person who has swallowed the tea made of this herb will after falling asleep tell where his money is hidden and will also arise and go directly to where his treasure is concealed. Robbers often use this tea as knockout drops with which to rob their victims.

JOHN A. DIX.

Would Have Cities Free From State Interference.

ADVOCATES HOME
RULE FOR CITIES

Governor Dix Pleads for Release From State Control.

Chicago, Sept. 20.—A powerful plea for the emancipation of American cities from the control of state governments was made at the International Municipal congress by Governor John A. Dix of New York, whose paper on "Home Rule for Cities" was read by Charles Logue, chairman of the Boston schoolhouse committee. The paper read in part:

"The necessary condition of efficient and honest municipal government is an adjustment of relations between the states and the cities that will make the cities as free from state interference as states are free from national interference and control. There can be no right solution of the problem of city government until it is admitted that the city has inherent right to be endowed with adequate authority that can be exercised without interference from any quarter to satisfy the rights and meet the needs of the people within the municipality. 'The time has come when the cities should demand that, instead of being governed as subject provinces, they should be endowed with powers of government as complete and efficient as those vested in the state and the nation.'"

WILL OF J. W. GATES FILED

Estimate of \$5,000,000 Mere Formality, Says the Attorney.

Beaumont, Tex., Sept. 20.—The will of John W. Gates has been filed for probate here. The application for probate states that the estate will amount to more than \$5,000,000. James L. Autrey of Houston, who filed the application, said this amount had been fixed as a mere formality.

Mrs. Dollora R. Gates and Charles G. Gates, widow and son, are named as executrix and executor without bond. To Charles G. Gates is willed \$1,000,000 and an annual income of \$100,000. There is only one other bequest, \$100,000 going to the Mary G. Gates hospital at Port Arthur, Tex. A bequest of \$3,000,000 to the Gates old people's home at West Chicago, Ill., was revoked in a codicil.

IOWA EDITORS FAVOR TAFT

So Says Result of Senator Young's Poll of the State.

Des Moines, Sept. 20.—Iowa Republicans are for Taft for the presidential nomination in 1912 in preference to Senator La Follette, according to the poll of Iowa Republican and independent editors completed by former United States Senator Lafayette Young, editor of the Des Moines Capital.

Of the Republican editors who voted 143 declared they wanted Taft and fifty-three voted for La Follette. Twenty-one independent editors voted for Taft and thirty-seven for La Follette. Of the independent Republican editors six voted for Taft and five for La Follette, making the total 175 for Taft and ninety-five for La Follette.

The question asked of the editors was: "Whom do you prefer as the Republican nominee for president in 1912—Taft or La Follette?"

BELIEVE MAN WAS MURDERED

Body Found in Grove Near Woonsocket, S. D.

Mitchell, S. D., Sept. 20.—The body of a man was found in a small grove seven miles east of Woonsocket with the back of the head shot off. A letter on his person was addressed to Ous Kraft and was written by Kraft's mother, living at Crocker, S. D., on July 2.

A week ago two men were seen driving to the grove at dusk and the presumption is that Kraft was killed at that time.

OBJECTS OF MR. TAFT'S TRIP

He Is Probably Looking For Delegates as Well as Votes—What Congress Does at Next Session Will Have Much to Do With Naming the Democratic Candidate For President.

By ARTHUR W. DUNN.

Washington, Sept. 20.—[Special.]—More states are being carried for presidential candidates this year than will be carried next year after the conventions have been held. It is quite easy to say that this or that state is for one or another man, and generally it is, according to the fancy or personal feeling of the man who is interviewed. In the past week six or seven states have been carried in this manner.

Tennessee has been declared in the Wilson bag, Alabama for Harmon, Maryland and Virginia for Harmon, South Carolina for Wilson, Colorado for Clark and West Virginia for Harmon. This is all very interesting as showing the opinion of the individuals, especially if they happen to be men who are in touch with people and whose views are likely to reflect what is really going on in presidential politics. But the impression seems to be that the next four months of congress will determine the Democratic nominee.

For Delegates or Votes.

At this time it is conceded that there is little doubt about the nomination of President Taft in the Republican national convention, and it is almost safe to predict that different states will be for him next year. Then, different men say, why is it necessary for Taft to make his extended western trip? Is he after delegates or votes?

Naturally, if it is conceded that he is going to be nominated without much trouble, it must be votes he is looking for after the nominations are made. But in addition to that the president would not be pleased to have a lot of the western states—states necessary to Republican success—send anti-Taft delegates to the next convention. So he may be after both delegates and votes.

The Prohibition Wave.

Last year when Missouri rejected prohibition by such an overwhelming majority Congressman Bartholdt of that state, one of the strongest opponents of prohibition in congress, said that the high tide of prohibition had been reached and rolled back by Missouri. The prohibition movement is not easily checked, and its friends are not going to be discouraged because the Pioneer State in the cause, Maine, seems to have changed considerably in sentiment.

The trouble the prohibitionists always have is that communities and states which have enacted prohibition laws do not enforce them with enough severity. The "blind pig" system has done a lot to discourage prohibition.

New Jersey Roads.

Speaker Champ Clark has declared in favor of a national highway between Washington and Gettysburg as the beginning of a movement for national good roads. The good roads talk has progressed to the extent that different states are now making claims to the best roads as an advertisement of their attractiveness. It has been boldly asserted by New Jersey men that the roads of that state are better than any elsewhere in the country. Possibly the statement may be disputed by some of the New England states, where there are many very excellent roads. The belief is general that the coming session of congress will make a beginning toward national aid for roads throughout the country.

Property Safe in Mexico.

The United States government has received assurances that American interests are secure in Mexico, and the danger which at one time was feared has passed. When the revolution was at its height predictions were freely made that the hundreds of millions of dollars invested by Americans in Mexico would be destroyed. That was one reason given for the mobilization of an army on the Rio Grande.

It now appears that the Mexican people have not been bent on destruction, but were seeking a change in the government. The troops have all been ordered away from the Mexican border and the fear of trouble in that country in which this government would become embroiled has passed. Perhaps even those who create disturbances such as have been witnessed in Mexico are aware that the destruction of property means that the people will sooner or later have to pay the damages.

Those Ohio Boomers.

Those fellows from Ohio who have gone out to make Harmon president do not stop halfway on the road. They are "on the job" all the time. It may be that they do not all like Harmon, but the fact that they are from Ohio is enough for them. They are firmly imbued with the Ohio idea, which is, "When there is a chance to elect an Ohio man president get busy and never sleep."

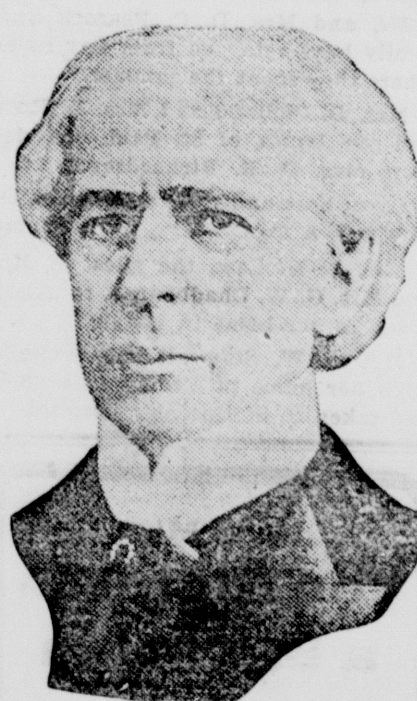

Congressman Allen, who jointly with Nick Longworth represents Cincinnati, is one of the busy Harmon boomers. He is dead in earnest all the time.

WIND OVERTURNS
AVIATOR'S CRAFT

Louis Rosenbaum Killed at Clinton County, Ia., Fair.

Clinton, Ia., Sept. 20.—Falling 150 feet from a Curtiss biplane Louis Rosenbaum of Mineola, L. I., was instantly killed at Dewitt, after a twenty-minute flight, before 3,000 spectators at the Clinton county fair.

Rosenbaum ascended at 4:30 and circled over the city and surrounding territory. Twenty minutes later, as he was in the act of landing in front of a hangar on the grounds, a gust of wind overturned the machine, which fell. The aviator was dead when spectators reached the scene of the accident. His neck had been broken.

Rosenbaum was twenty-seven years old and was married.

Drops 650 Feet and Lives.

Webster City, Ia., Sept. 20.—Falling from a balloon 650 feet in the air and clinging to a frail parachute which failed to spread properly, Dare Devil Peter Maynard of Williams, east of this city, miraculously escaped death at the Kossuth county fair at Swea City. Not only is Maynard alive after his long fall, but not a bone was broken and he has no injuries besides painful bruises.

CONTEMPT OF COURT CHARGED

Prosecution in McNamara Case Would Prevent Intimidation.

Los Angeles, Cal., Sept. 20.—A warrant charging John R. Harrington, a Chicago attorney, allied with the defense of the McNamara brothers, with contempt of court for having refused to answer questions before the grand jury, has been issued. It was given out for service, but a search developed the fact that he was in San Francisco.

The warrant, according to the deputy district attorney, is the first of a series planned by the prosecution to put a stop to alleged attempts to intimidate or influence witnesses for the state at the coming trial of the accused dynamiters.

REFUSES TO MEET HER SON

Supposedly Dead Man Returns After Thirteen Years.

Niles, Mich., Sept. 20.—George Alfred Kimmel, believed by relatives to have been dead for thirteen years, arrived at his old home here from the penitentiary at Auburn, N. Y., and was identified by dozens of former friends and associates. Among those who identified him was a cousin, Mrs. Harry L. Fox, who opened her home to the wanderer and celebrated his strange return.

Despite Kimmel's identification, however, and his acceptance by other relatives, his mother, Mrs. Stella Kimmel, refused to see him. She remained in seclusion at the home of a friend, while scores of Kimmel's old companions sought him out at the Fox residence and greeted him warmly. The mother continued to denounce Kimmel as an impostor who was attempting to deprive her of \$25,000 insurance which she held on her son's life.

Suicide at Sioux Falls.

Sioux Falls, S. D., Sept. 20.—The body of a man who from papers found in his pockets is supposed to be Elmer Fallier, was found on the west bank of the Big Sioux river in the wholesale district. He had committed suicide by drinking carbolic acid, which is, "When there is a chance to elect an Ohio man president get busy and never sleep."

Congressman Allen, who jointly with Nick Longworth represents Cincinnati, is one of the busy Harmon boomers. He is dead in earnest all the time.

Iowa Man Lost in Woods.

Mason City, Ia., Sept. 20.—Messengers received here say John Crimp, a resident of this city, has been lost in the big woods and hills near Laconia, Wash., for seven days and that little hope is entertained of finding him alive. He was hunting big game.

MORGAN DICTATES TERMS

To Advance Loan If Order Regarding Morocco Is Obeyed.

Paris, Sept. 20.—J. P. Morgan is dictating the terms which Germany shall accept in settling the Moroccan controversy with France. German financial interests are known to be in dire need of ready money and Mr. Morgan has been asked to lend most of the sum that may be required.

It is stated by reliable sources that Mr. Morgan has consented to advance the gold required on condition that his political mandate in regard to the Morocco affair be complied with.

Here is the reported condition under which Mr. Morgan agrees to lend the money and at 7 per cent interest: That the German government accept France's proposals relative to Morocco and the Congo, the American millionaire expressing the opinion that prompt acceptance of the proposals will in itself go far to relieve financial uneasiness.

Bankers and diplomats say that Morgan's ultimatum indicates that Germany has been bluffing and that she cannot go to war if she would, for she has not the money.

MINE STRIKE IS IMMINENT

Operators Refuse to Arbitrate in Excelsior Mine Trouble.

Des Moines, Sept. 20.—W. H. Rogers, president of the Thirteenth District Mine Workers' union, has received a communication at Albia from the Iowa Coal Operators' association, which refused to arbitrate the Excelsior mine controversy.

Work will stop at the Excelsior mine at Beacon, according to the ultimatum delivered to the operators.

If the operators maintain their present attitude every miner in the Thirteenth district will be called out on strike, according to prominent unionists.

Parade of Nationalists Attacked by Young Liberals.

PREMIER'S APPEAL VIGOROUS

Campaign Practically Closed Has Been the Most Bitterly Contested in the History of Canadian Politics. Reciprocity Is Supreme Issue of the Contest.

Montreal, Sept. 20.—Sir Wilfrid Laurier, who made several speeches here, left Montreal followed by a storm of hoots and hisses from the throats of the followers of Henri Bourassa, the Nationalist leader. The latter, on the conclusion of a speech in the Ontario rink, proceeded with his followers to the Place Viger station, where he delivered another short address.

While Bourassa was talking the premier and his followers arrived. The Nationalists, mindful of the heckling and jeers which their leader had encountered from the Liberals on his recent tour, broke into a storm of jeers. No personal violence was offered, however, and the premier left according to schedule.

Following this demonstration clashes occurred between the followers of Sir Wilfrid and Mr. Bourassa and so threatening was the aspect that police were called out. However, the disorder soon was quelled and the crowds gradually dispersed.

The trouble started when a parade of Nationalists, headed by Mr. Oliver Asselin, a Conservative Nationalist candidate, and including a number of floats and effigies, came along the road. A number of young Liberals charged and the floats were broken and clubs improvised from the wooden supports. The police dispersed the rioters before much damage was done.

Both the premier, who has been reciprocity's most prominent exponent, and the Nationalist leader were greeted with the enthusiasm typical of the politically susceptible French element of Montreal.

Reciprocity Main Issue.

That reciprocity is the supreme issue and that next Thursday's ballot affords an unprecedented opportunity for accelerating the Dominion's development was the reiteration of Sir Wilfrid.

That reciprocity is undesirable was insisted upon by Mr. Bourassa. The folly and worse of the government legislation for the nucleus of a Canadian navy, and the necessity of perpetuating various rights and advantages enjoyed by the French-speaking population of the Dominion also were important factors in this campaign, he asserted.

Although obviously worn by his five weeks of travel and speechmaking, the premier made his summarizing appeal for ratification of reciprocity with notable vigor and alternately was severe and facetious in assailing those who, he said, have sought to insult the intelligence of the Canadian voter by persisting in the attempt to substitute the dead dog of annexation for the live issue of reciprocity.

"I admire the great American republic," said the premier. "I was born in Canada. It is my land, and I do not want it merged into the American republic. Under reciprocity we shall be even better friends and furnish in the American continent an example of great peoples living on either side of an invisible line in peace and amity."

Touching upon the opposition to reciprocity noted in industrial centers, Sir Wilfrid declared that the manufacturers were, to say the least, shortsighted. If the manufacturers persisted in refusing to accede to the request of the farmers for the American market and should make their refusal effective, it would not be at all surprising if the farmers would refuse to bear the burden of the protective tariff which was fostering Canadian industries. The farmers might go even a step further and ask for more drastic tariff changes, said the premier. However, he did not intend to make any threats.

Bank Robbed of \$2,000.

Lignite, N. D., Sept. 20.—Using four charges of nitroglycerin, yeggmen demolished the safe of the First State bank of Lignite, securing \$2,000. The men made their escape in spite of the fact that the last report awakened several of the townspeople. Chase was not given, as the yeggmen evidently had a start that could not be overtaken, and it was impossible to ascertain for some time which direction they had taken. The interior of the bank building was not badly damaged, but the safe suffered heavily, both big doors being blown off. Its entire cash contents were carried away.

Boy Kills Companion.

Moose Lake, Minn., Sept. 23.—Floyd Ireland, a boy of sixteen, was shot dead here by Victor King, a companion, aged fourteen. The boys were shooting at a target and young Ireland fired upon it and went to inspect his shot. The rifle, left in King's hands, was accidentally discharged, the bullet entering Ireland's back and penetrating the heart.

COUNTY EXHIBIT IS SHIPPED TODAY

Comprehensive Exhibit of Crow Wing County Products Gathered by Messrs Keene and Elder

PROF. WILSON IS THE ESCORT

The Northern Pacific Railway's Special Car Will Display Them all Over the Country

A section of the sidewalk in the shadow of the First National bank this morning looked like a county fair with George A. Keene and Alderman James M. Elder as directors and Prof. J. A. Wilson as chief packer of the products.

When President LaBar of the bank, looked out of the window he beheld an array of cabbages, potatoes, parsley, onions, sugar beets, table beets, cauliflower, rutabagas, mangel-wurzel, tomatoes, Minnesota No. 13 corn, Northwest Dent corn, Yellow Dent corn, oats, rye, standard apple, crab apples, two varieties of grapes, Freeman Thorp's renowned plums and even a big, lowly pumpkin.

It proved conclusively that Crow Wing county soil is adapted to raising the finest quality of vegetables and grains and fruits and that intelligent, intensive cultivation brings results far greater than can be achieved in Iowa, the Dakotas and other neighboring states.

This whole exhibit was packed this morning and placed in care of Prof. J. A. Wilson who escorted it to St. Paul.

At St. Paul the Northern Pacific railway took it over and placed it in its display car which will travel all through Iowa, Illinois and many other states in the east and west and will herald to the world what Crow Wing county is capable of doing and the arguments advanced will carry weight, especially that 30 pound cabbage, for Crow Wing county has the goods.

The work of the Northern Pacific railway, performed gratuitously, will do much to attract settlers, especially at this propitious time when there is a feeling of unrest and a desire by many to get back to the land.

The contributors to the exhibit made by the county include Thomas Beare, George Reardon, Wilber Hunt and D. Archibald, of Bay Lake; P. S. Taylor, James Jacobson, R. Wolvert, Peter Stendahl, John Larson, Adam Brown, and others. Many contributed without their knowledge, for when Prof. J. A. Wilson traveled through the country and saw a good looking ear of corn or a hill of potatoes he just grabbed them and took them along to help in the good cause.

SHOES FOR THE WHOLE FAMILY

Our store is really a family shoe store, because our stock and ability enable us to give either a man or women ease, snap and style; or to shoe the feet of a child so they will grow and serve the purpose for which they were intended, and not be hindered or cramped. We take a lot of just pride in this.

WANT MEN TO WORK

Everett-Hitch Co. and James M. Quinn are Scouring the Town and County for Laborers

The police of the city wish to have many of the kind hearted ladies of the city to understand that there is lots of work in Brainerd and especially a demand for laborers by James M. Quinn and the Everett-Hitch Co., and that every handout given an able bodied beggar or tramp is keeping such a man from a job.

As long as tramps are fed in the city they will not work and construction work and logging must run short handed.

"I wish the women of this town would quit giving out lunches," said Capt. Hurley. "That would make the bunch of idlers go to work and stop hanging around town and giving the police trouble. It's all right to be kind-hearted, but it's no use feeding able bodied men."

NEW PHONE DIRECTORIES

Northwestern Telephone Exchange Directory Shows a Large Increase in Subscribers

The new telephone directory of the Northwestern Telephone Exchange company for September has just been issued and it makes a most gratifying showing in the way of an increase of subscribers, both in the city and the country districts. "Our new book," said T. H. Conside, the commercial manager, has an addition of 80 city and 40 rural subscribers to the list published in our March directory. Our total telephone users are 860 subscribers of which 700 are local."

OLYMPIC COLLIDES WITH A CRUISER

Special to Dispatch:—

Cowes, Isle of Wight, Sept. 20.—The White Star steamship, Olympic, the biggest liner afloat, collided with the British cruiser, Hawkes today. The Olympic struck on the starboard quarter where a large hole was smashed in. She was beached in the Cowes roadstead and her twelve hundred passengers were taken off safely.

A RACE BETWEEN SOO AND N. P. RYS.

Coming Year Will See One or Both Building a Line Tapping the South Range

MANY RUMORS ARE AFLOAT

Northern Pacific Believed to be Pushing the Shaft South of Deerwood in 30-46-28

Rumors and certain movements in the exploration work and probable drift in railway construction work lead one to believe that the coming year will see a lively race between the Northern Pacific railway and the aggressive Soo as to which will be the first to tap the rich iron ore deposits on the south range of the Cuyuna iron range.

It is believed by many that the Northern Pacific railway is pushing the shaft south of Deerwood in section 30-46-28 and rumors are being circulated today that the Northern Pacific railway has underbid the Soo and has received the contracts to haul the product from this mine.

Pickands & Mather, by the way, have never given up their rights to the lands in section 8-45-29 and are said to be paying royalties on the land on which they started a shaft, about the first exploratory work of this character on the south range.

Two and one-half miles from Pickands & Mather lies the land of R. K. Whiteley, of this city, in section 13-45-30 and this has been drilled at various times and is believed to contain a large body of merchantable ore.

Near by is the ore land in section 14-45-30 and owned by the North-west Improvement Co.

It is believed highly probable that a railway line is soon to be built connecting these various interests on the south range and it will resolve itself into a race between the two great transportation companies of the Cuyuna range, the Northern Pacific railway and the Soo line.

NEW INSURANCE FIRM

T. J. Miller Co., of Bemidji, Associates With A. P. Riggs, of This City

The T. J. Miller Co., of Bemidji, has consolidated with A. P. Riggs, of this city and will make Brainerd its center of home office for a real estate and insurance business radiating in all directions. Branch offices will be maintained at Deerwood, Crosby, Bemidji, Ten Strike and International Falls. Brainerd was selected as a home office for it is midway between all the points designated.

T. J. Miller is an old time insurance man who has been in business in Bemidji for the last ten years during five years of which time he states having placed \$180,000 on farm loans. He will attend to the real estate and loans of the company at Brainerd. D. D. Miller will have charge of the insurance department. A. J. Carpenter and A. P. Riggs will have charge of the office work in Brainerd.

The company has rented the Dr. J. L. Camp newly remodeled building at 614 Maple street, the first door east of the postoffice. Having heard of the boom on the south range of the Cuyuna iron range they managed to pick up 400 acres there and expect to develop their holdings.

NEW CHURCH DEDICATED

New Methodist Church at Emily Dedicated by Rev. Dr. E. K. Copper, District Superintendent

The new Methodist Episcopal church at Emily, at the northeastern part of Crow Wing county, was dedicated on Sunday by the Rev. Dr. E. K. Copper, district superintendent of the Duluth district, and the pastor. Large audiences were on hand at both services and the church dedicated free of debt.

The church is quite a commodious structure and so built that it can be easily enlarged with the growth of the community, and the people of Emily and vicinity feel quite elated at having a church there.

Emily is situated in a fine farming community and quite recently much land has been purchased in large quantities by iron ore companies and several surveys have been made for a railroad to be built sometime in the future. Emily and its sister town Outing, are also situated in the finest lake district of Crow Wing county.

STOMACH MISERY ENDS

No Indigestion, Gas, Sourness, Heartburn or Dyspepsia Five Minutes After Taking Diapepsin

The question as to how long you are going to continue a sufferer from indigestion, dyspepsia or out-of-order stomach is merely a matter of how soon you begin taking some diapepsin.

If your stomach is lacking in digestive power, why not help the stomach to do its work, not with drastic drugs, but a re-enforcement of digestive agents, such as are naturally at work in the stomach.

People with weak stomachs should take a little diapepsin occasionally, and there will be no more indigestion, no feeling like a lump of lead in the stomach, no heartburn, sour risings, gas on stomach or bloating of undigested food, headaches, dizziness or sick stomach, and, besides, what you eat will not ferment and poison your breath with nauseous odors. All these symptoms resulting from a sour, out-of-order stomach and dyspepsia are generally relieved in five minutes after taking a little Diapepsin.

Go to your druggist and get a 50-cent case of Pape's Diapepsin now, and you will always go to the table with a hearty appetite, and what you eat will taste good, because your stomach and intestines will be clean and fresh, and you will know there are not going to be any more bad nights and miserable days for you. They freshen you and make you feel like life is worth living.

ROSS LAKE RIPPLES

Everyone is cutting corn now. Some of it was touched by the frost, but most of it was out of danger.

Ole Hallin went to Aitkin Tuesday to have some of his teeth repaired. The dear boy returned Friday.

Peter Johnson is working at the drill in the absence of Mr. Hallin.

Mr. George McGregor and family and his sister and little daughter, who are visiting them, came down from their homestead north of Ross Lake on Wednesday, and called at the Simpson home and at Woodson's.

Mrs. Toudt and Mrs. Kealer went to Aitkin Friday and returned that night. They say there were a few things they didn't purchase but everyone who saw their load, doubt it very much.

John Olson went to Deerwood again Friday. We wonder why he goes so often.

Several of the Ross Lake natives attended the dance at Wenzel's Saturday night.

The Ross Lake boys played with Mud Brook again Sunday, but owing to the fact that six of our players attended the dance the night before, they lost the game to Mud Brook, the score being 27 to 18. The boys will either have to give up dancing or ball playing.

Jimmy Toudt thinks that if they practice for a hundred years, they might be able to beat Mud Brook next time.

Home Wells was heard to remark that the Keeler boys are popular with the girls, but when it comes to playing ball, they aren't in it.

Quite a number from Pine Knoll attended the game at Mud Brook Sunday.

Thirteen of the baseball enthusiasts came home in the launch Sunday night.

Mr. Baker and some men are improving the road near Stark lake. Next summer we expect to be able to run autos to Aitkin.

COUNTY EXHIBIT IS SHIPPED TODAY

Comprehensive Exhibit of Crow Wing County Products Gathered by Messrs Keene and Elder

PROF. WILSON IS THE ESCORT

The Northern Pacific Railway's Special Car Will Display Them all Over the Country

A section of the sidewalk in the shadow of the First National bank this morning looked like a county fair with George A. Keene and Alderman James M. Elder as directors and Prof. J. A. Wilson as chief packer of the products.

When President LaBar of the bank, looked out of the window he beheld an array of cabbages, potatoes, parsley, onions, sugar beets, table beets, table beets, stock beets, carrots, cauliflower, rutabagas, mangel-wurzel, tomatoes, Minnesota No. 13 corn, Northwest Dent corn, Yellow Dent corn, oats, rye, standard apple, crab apples, two varieties of grapes, Freeman Thorp's renowned plums and even a big, lowly pumpkin.

It proved conclusively that Crow Wing county soil is adapted to raising the finest quality of vegetables and grains and fruits and that intelligent, intensive cultivation brings results far greater than can be achieved in Iowa, the Dakotas and other neighboring states.

This whole exhibit was packed this morning and placed in care of Prof. J. A. Wilson who escorted it to St. Paul.

At St. Paul the Northern Pacific railway took it over and placed it in its display car which will travel all through Iowa, Illinois and many other states in the east and west and will herald to the world what Crow Wing county is capable of doing and the arguments advanced will carry weight, especially that 30 pound cabbage, for Crow Wing county has the goods.

The work of the Northern Pacific railway, performed gratuitously, will do much to attract settlers, especially at this propitious time when there is a feeling of unrest and a desire by many to get back to the land.

The contributors to the exhibit made by the county include Thomas Beare, George Reardon, Wilber Hunt and D. Archibald, of Bay Lake; P. S. Taylor, James Jacobson, R. Wolvert, Peter Stendahl, John Larson, Adam Brown, and others. Many contributed without their knowledge, for when Prof. J. A. Wilson traveled through the country and saw a good looking ear of corn or a hill of potatoes he just grabbed them and took them along to help in the good cause.

WANT MEN TO WORK

Everett-Hitch Co. and James M. Quinn are Scouring the Town and County for Laborers

The police of the city wish to have many of the kind hearted ladies of the city to understand that there is lots of work in Brainerd and especially a demand for laborers by James M. Quinn and the Everett-Hitch Co., and that every handout given an able bodied beggar or tramp is keeping such a man from a job.

As long as tramps are fed in the city they will not work and construction work and logging must run short handed.

"I wish the women of this town would quit giving out lunches," said Capt. Hurley. "That would make the bunch of idlers go to work and stop hanging around town and giving the police trouble. It's all right to be kind-hearted, but it's no use feeding able bodied men."

REMINISCENCES OF EARLY DAYS

Mrs. E. Steele Peake Writes of the Pioneer Days of the State of Minnesota

A MOST INTERESTING RECORD

Furnished Dispatch by Mr. Leon E. Lum Preparatory to Filing With State Historical Society (Continued from yesterday)

With Dr. Breck and his wife and son were Mr. and Mrs. Rees and three sons and two daughters and Miss Herron, a teacher. They staid with us all day and toward night went on to Fort Ripley—our haven of refuge. Dr. Breck went to Faribault then and started a school there.

In August 1857, about the 19th, three young Indians, who had been to Crow Wing for the mail and had been drinking, met a poor, half-witted German who traveled with a pack on his back and began pelting him with stones. They killed him in this way and then buried his body. A sister of one of them saw it all but was concealed from view. After they had buried him they came on to the mission with the mail.

We had a leather bag, small size, of which there was a key at the Crow Wing postoffice and one at the mission, so the mail was carried safely.

But Mrs. Johnson, the wife of our Indian minister, Anamagaba, (I am not sure of the spelling), had seen the burial and she told her husband when he came home. He went and found the body and told Mr. Peake.

They thought it too grave an offense to let pass and both advised the arrest of these young men. There was no one to make the arrest but some young white men at that time at Pull lake. They did so, intending to put them in the hands of the sheriff at Belle Prairie. They stopped on the way at Fort Ripley. But for a short time the fort was not garrisoned so it happened that only Rev. Manney and an old ordinance sergeant were there. So Mr. Manney advised just what had been first intended, taking them to Belle Prairie and placing them in the hands of the sheriff to be taken to St. Paul.

This plan was followed, but between Little Falls and the next town a band of whites took them from the sheriff and hung them between two trees. A sister of one of them saw the hanging.

One day the following week at five o'clock there was hardly an Indian to be seen when we went out to go to the daily Ojibwa service. But everywhere there were camp fires burning, indicating a large gathering of Indians.

As we came out of the church I started to shake hands with Manitowab who had always been very friendly; but he put his hand behind his back and a blacker looking face I never saw. It struck terror to my heart. Just then Mr. Peake came out of the church and led me away. When out of hearing he said: "Those young men have been killed by a mob."

That night we took care of our things in preparation for flight. The Indians said that three lives were too many for one. A council was held on Round lake and some Indians started for Leech lake for the relatives of these young men.

The question arose, "Should they wait till the Indians came from Leech lake or should they demand some of the young men connected with the mission."

Bad Boy, who always stood by the whites, came and told us to keep quiet until morning—that the Indians had ten gallons of whiskey and that toward morning they would all be asleep and that then, as the road did not pass close to where they were we could get away. We had a democrat wagon but just then were without a horse.

About dark, Will Manney, fearing we might be in danger, arrived from Fort Ripley with a horse and a gun. Tom Rees came with him.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. Half the Regular Fuel Supply Required

Cole's Original Hot Blast Heater, on account of the patented air-tight and gas-tight construction and patented hot blast combustion, gives perfect control over the fire.

Build Only One Fire a Winter

It is so perfect in construction that fire keeps all night—It saves the gases wasted with other stoves.

The cost of the stove is saved in fuel. \$5.00 worth of soft coal, hard coal or lignite, or a \$1.50 ton of slack or screenings will do the work of twice the amount of fuel in other stoves.

It is guaranteed to remain always air-tight, which means that it is always a fire-keeper.

Examine Cole's Original Hot Blast before you buy—Avoid imitations which only look like the genuine.

Half the Regular Fuel Supply Required

Cole's Original Hot Blast Heater, on account of the patented air-tight and gas-tight construction and patented hot blast combustion, gives perfect control over the fire.

Build Only One Fire a Winter

It is so perfect in construction that fire keeps all night—It saves the gases wasted with other stoves.

The cost of the stove is saved in fuel. \$5.00 worth of soft coal, hard coal or lignite, or a \$1.50 ton of slack or screenings will do the work of twice the amount of fuel in other stoves.

It is guaranteed to remain always air-tight, which means that it is always a fire-keeper.

Examine Cole's Original Hot Blast before you buy—Avoid imitations which only look like the genuine.

The heater with a reputation.

D. M. Clark & Co.

Price \$12.00 and upward according to size and style.
